19th Century Spanish Bowling Ball

Reference:

Description
This 19th Century bowling ball is from Spain. (18in H x 8in W x 8in D) You pick up the ball by inserting your thumb in the round hole and your 4 fingers in the curved elongated hole. The small holes drilled all over the ball were to balance it so it would roll straight. Comes with stand. I've always thought it was a great piece of sculpture.
