167-STM2-NP Marseilles Tall Chandelier Nickel Plated with Amber Shades Although we usually focus on American antiques and new design items, we couldn't resist this French design Art Deco five light chandelier.
We offer a close ceiling chandelier and sconce, and now the option for a tall chandelier. The original chandeliers came from a restoration project in Seattle, in the style and quality of Noverdy and Vianne who are now mostly out of business.
When the original antiques sold quickly, we decided to reproduce them to make them available to a wider market.Measurements: 36" tall by approx 26” diameter from shade tip to shade tip. Nice larger diameter chandelier. The basic fixture is solid heavy weight brass, with a variety of finishes available. Shown with the Antique Brass finish and Amber shades. The glass slip shades are typical of fine French quality, but rarely seen today, even in reproduction. Choose from amber (pictured) or frosted glass. The five sockets can handle up to 100 watt incandescent bulb each, or purchase our optional LED Art Deco looking bulb 60-WW-E26 , each using only 7 watts and putting out about 75 watts of incandescent equivalent light. Makes running the chandelier all night long, perhaps as a nite lite, very economical indeed and cool to the shades as well.
