Antique Turn of the Century Art Deco 5 Light Chandelier

Reference:

MPD-003105

Description Turn of the Century, five light, Art Deco ceiling chandelier.

Circa 1910-30

Cast iron fixture with it's original "self colored" gray metal finish. Finish does show it's age a bit after 90 odd years but like an oriental carpet, very pleasing to folks who appreciate this antique look.

The design of the metal casting is so very nice as well.

Please examine the center of this nice chandelier. There you will see a bakelite center design being escorted by five Mica panels on the outside of the fixture. The design is just plain NICE. There are three different amber colored elements...bakelite, mica and glass..but they do work together well.

Totally re-wired with new sockets and wire to UL standards and now is ready to install. The chandelier easily installs with the center finial to a standard crossbar and everything will be supplied.

The amber tipped shades are a nice touch and are near perfect condition.

Measurements: The Overall diameter, from shade tip to shade tip, is 18". Height is only 23 1/2" from the ceiling to the bottom of the finial.

$ 895.00 for the complete set as shown... plus careful packaging and shipping
