Lincoln Art Deco Slip Shade 2 Light Pendant

Reference:

MPD-001354
Description
Sweet! Solid brass, created using the Lost Wax casting method to preserve all the clear, crisp details. This part number is for the mellow antiqued finish, and with authentically reproduced orange slip shades. Lincoln Manufacturing, circa 1930, was one of the finest Art Deco light manufacturers of its day.

Plenty of other lights to choose from to match this one, including those pictured here also, with five lights or six lights for dining and kitchen rooms where more light or a bigger fixture is desired. All chandeliers are offered with short ceiling or tall ceiling options.

The two sockets can handle up to 100 watt incandescent bulb each, or purchase our optional LED Art Deco looking bulb 60□-WW-□E26 , each using only 7 watts and putting out about 75 watts of incandescent equivalent light. Makes running the pendant all night long, perhaps as a nite lite, very economical indeed and cool to the shades as well.

Available in different finishes and shade color.
