Art Deco Chicago Single Wall Sconce

Reference:

MPD-001386
Description
The best term to describe this series is simply: “Screaming Deco“, since that really is what every nuance and every square inch of design says. Covered completely with deco design and pictured with one of the most deco designed shades made in America, we just have to say…“Screaming!!”. These fixtures are all substantial, with a great dark/light pewter contrast.

This part number is a single sconce with porcelain socket. The socket can handle up to a 100 watt incandescent bulb, or purchase our optional LED Art Deco looking bulb 60-WW-E26, using only 7 watts and putting out about 75 watts of incandescent equivalent light. Makes running the sconce all night long, perhaps as a nite lite, very economical indeed and cool to the shade as well.

Pictured with both a frosted 0319G shade and an amber 0319AMG shade. Just could not resist taking a picture without the shade, since the metal fixture itself is just so nice indeed.
