Art Deco Wall Lights American Sconces Design by Lightolier

Reference:

MPD-003547
Description

205-ES Frosted Shade American Design Lightolier Sconce
205-ES-AM Amber Shade American Design Lightolier Sconce
Lightolier is another one of those iconic names for manufacturing during the Deco era. Founded in 1904, they published their first major catalog in the US called the “Stylebook” in 1920. They are still in business today, but not making antique designed lights any longer. These shades are from that “Stylebook” era, and are mounted on a more recent application white metal backplate that suits them quite well.
The finish of the backplates is a hi/lo pewter look and quite attractive.
Electrical: These sconces have been totally re-wired in our UL shop. Normal bakelite sockets for everyday medium base bulbs have been installed in each. The off/on switch is clearly seen at the bottom of the socket and it gives a pleasing ambiance as well. The sconce mounts with one normal sconce mounting all thread to a normal electrical box from within the case. All mounting hardware will be supplied.
A very nice American made antique and contemporary sconce.
Sconce Measurements:
Height: 11 1/2”
Width: 4 1/4” (backplate)
Projection: 4 1/4” from the wall into the room.
For one 205-ES sconce as shown, $285.00 plus careful shipping.
For one 205-ES-AM sconce (with amber shade), $295.00 plus careful shipping.

Price:

$285.00
