Fifties DeSoto Classic Automobile Illustration Poster MCM

Reference:

MPD-007075
Description
A fine example of American 1950's illustration. In the post- war era, the American automobile represented the new found freedom of the western world, and automobile ownership was available to most people for the first time. Printer's folds (how they were shipped in the mail to the dealerships), but conservation mounted onto linen, so the poster presents itself very well.. 38" x 50". A-/ on linen. We have been collecting and selling vintage posters for over 30 years.
