Description
Exceptional piece,it may be a single piece
This lamp has a second light in the inner lower part.
Your light comes out through the holes
We offer you this spectacular vintage Art Deco style Manises lamp with interior lighting. I'm not sure if it's from Manises but surely from the surroundings and probably a singular work of a local artisan. It is very different and original. Only found in the market a similar but without the flowers and the design of the base in some artist I remember that German that I have not returned to locate.
Large size and format has dimensions that are superior to most Manises lamps. For its rarity and especially for its state that is perfect, it is a jewel very hard to pass by porcelain and ceramic lovers It is elegant and very original, much more than it appears in the photos. Ideal for beautiful and stylish things.
Very good condition, like new
